Health Sciences PM	River Valley CC: Legal & Ethical Issues in Healthcare (ALHT 166R)	River Valley CC: Medical Terminology (ALHT-102R)
Teacher Education**	TBD – pending Champlain College Opportunity	TBD – pending Champlain College Opportunity

*Please note the Cybersecurity plan above is the looped curriculum that has been in place under the instructor who is retiring June 2024. Under the new instructor, the course offerings might change to include CCV course options.

**If the Champlain College plan for Teacher Ed is not finalized in time, we would continue to offer 2 courses through CCV as we normally do. Historically, those classes have been: Child Development (PSY-2010) and Fostering Creative Learning Environment (EDU-1250).

^Culinary Arts and Diversified Agriculture/Natural Resources: we are currently exploring college credit options for these programs. As soon as a plan is determined, we will let you know. It is possible this will be met by online CCV courses available such as Intro to Business or Entrepreneurship Mindset. Another option could be to switch from Articulation Agreements with specific institutions and switch to Dual Enrollment. Stay tuned!
